

## **POSTDOCTORAL OPENING**

### **The Ohio State University**

Applications are invited for a postdoctoral position in the Speech Psychoacoustics Laboratory at The Ohio State University. The NIH funded position will involve research on speech perception, specifically the use of spectro-temporal speech cues by normal-hearing and hearing-impaired listeners. Opportunity for work involving CI users also exists.

More information about the laboratory is available here:

<http://sphs.osu.edu/Faculty/Healy/index.htm>

The ideal candidate will hold the Ph.D. in Speech & Hearing Science, Psychology, or a related field, have scholarly publications in a closely related area, and have expertise implementing experiments in MATLAB.

Please submit to the address below a letter describing research experience and interests, CV, contact information for three references, and relevant reprints. Electronic submissions and informal inquiries are welcome.

To build a diverse workforce Ohio State encourages applications from individuals with disabilities, minorities, veterans, and women. EEO/AA employer
