Audio Engineering Society, Student Design Competition Free Registration Opportunity

The AES Saul Walker Student Design Competition is an opportunity for aspiring hardware and software engineers to gain recognition for their hard work, technical creativity and ingenuity, by participating in a worldwide contest at AES Conventions.

The Student Delegate Assembly of the Audio Engineering Society (AES) we will offer a free entry to select number of students to attend the Student Design Competition at the 144 AES Convention with free entry and present their work which designs must be for use with audio. To see rules of submitting your project please visit; http://www.aes.org/students/awards/design/

A goal of this award is to promote young ambitious hardware and software engineers at the AES Convention.

Applications must include:

- A cover letter – limit one page
- An abstract of work – limit of 200 words
- A current CV

Cover letter should include a statement of interest in interdisciplinary research, how your work is relevant to AES Saul Walker Student Design Competition, a background on your education and area of study, and a statement of financial need for attending the AES Convention.

Deadline for the free badge award is **Wednesday, April 11, 2018**. Please email applications to Student Delegate Assembly (SDA): sda@aes-sda.org

Applicants will be informed of the decisions by 23 April 2018.
