

**Kresge Hearing Research Institute
Department of Otolaryngology-Head and Neck Surgery
University of Michigan Medical School
Assistant or Associate Professor**

Applications are being considered for a full-time, tenure-track position in the Kresge Hearing Research Institute and the Department of Otolaryngology-Head and Neck Surgery, University of Michigan School of Medicine. The successful candidate will hold a PhD, MD or MD/PhD degree and will have research interests relevant to auditory and vestibular function broadly defined, including the development, function, and pathologies of the auditory and vestibular systems, from peripheral to central. Candidates performing human, animal, and/or computational research are encouraged to apply. The faculty position is within the vibrant and highly interactive research environment of the Kresge Hearing Research Institute. The Institute is affiliated with the Department of Otolaryngology-Head and Neck Surgery and resides within the very strong and collegial research community of the University of Michigan. We are seeking exceptional scientists to establish vigorous independent research programs, form productive collaborations and promote translation of their research in a diverse and inclusive environment. Please submit a current CV and a 2- or 3-page description of research interests and future directions. Please ask three to five references to send letters as well. Review of applications will continue until the position is filled. Materials should be sent to the KHRI search committee at:

khri-facultysearch@med.umich.edu

The University of Michigan is supportive of the needs of dual career couples and is an Affirmative Action/Equal Opportunity Employer. Women and members of minority groups are encouraged to apply.
